Mother's Day

In its early days, people observed Mother's Day by going to church, and by writing letters to their mothers.
 More people purchase fresh flowers and plants for Mother's Day than for any other holiday except Christmas/Hanukkah.
 In 2018, US consumers will spend \$23.1 billion celebrating Mother's Day.
 Shoppers will spend an average of \$180.00 on Mom.
 Most consumers give cards (77%) and flowers (69%) to their mothers or take her out to eat (55%) in 2018, but more money will be spent on jewelry (\$4.6 billion).
 Tasks moms perform at home would be worth \$67,619 a year in the professional world.
 Anna Jarvis started the tradition of wearing a carnation on Mother's Day.
 A colored carnation means that a person's mother is living.
 A white carnation indicates that a person's mother is deceased.
 In 2015, 26.4 was the average age in the U.S. for first-time mothers.
